

2025 Faculty Research

教師	刊登年	篇名	期刊名稱期數	
李御賢 Yun Shien Lee	2025	Prognostic significance of perioperative circulating CD56bright NK cell and recovery of NK cell activity in patients with colorectal cancer undergoing radical surgery.	Translational Oncology 2025 Feb.	SCIE
		HLA-DQB1*05:02: A Novel Genetic Marker for Susceptibility to Oral Cavity Squamous Cell carcinoma.	Cancer Medicine 2025 Apr.	SCIE
吳慧中 Hui Chung Wu	2025	Streptococcus atopica sp. nov., Isolated from the Feces of a Toddler with Atopic Dermatitis.	Current Microbiology 2025 Oct.	SCIE
		Enterococcus infantis sp. nov., isolated from the faeces of an infant with atopic dermatitis.	International Journal of Systematic and Evolutionary Microbiology 2025 Oct.	SCIE
		Apilactobacillus intestinapis sp. nov., isolated from the honeybee.	International Journal of Systematic and Evolutionary Microbiology 2025 Nov.	SCIE
梁致遠 Ji Yuan Liang	2025	Synergistic degradation of catechin and minocycline hydrochloride in alkaline solution.	Arabian Journal of Chemistry 2025 Jul.	SCIE
林重銘 Chung Ming Lin	2025	A Multifaceted Giant Protein Microtubule-Actin Cross-Linking Factor 1	International Journal of Molecular Sciences 2025 Mar.	SCIE
		Ursolic Acid Suppresses Colorectal Cancer Through Autophagy–Lysosomal Degradation of β -Catenin	International Journal of Molecular Sciences 2025	SCIE

			Jun.
